ABOUT ME

Hello everyone! I am Saniya Sheth. I am currently a third year IT student at PICT Pune. I'm deeply passionate about leveraging technology to solve real-world challenges. As a dedicated full-stack web developer with a knack for problem-solving through Data Structures and Algorithms, I find joy in unraveling complexities and crafting innovative solutions.

My journey in the world of technology began during my first year at college, where I was introduced to its vast landscape. I have gained proficiency in Java, Object-Oriented Programming (OOPs), and Data Structures and Algorithms. My strength also lies in full-stack web development, where I enjoy architecting and developing solutions that merge functionality with seamless user experiences.

Currently seeking an internship opportunity, I am eager to apply my skills and passion in a professional setting. My ultimate aspiration is to contribute to impactful projects, bringing my skills to teams to scale solutions effectively.
